7. DESCRIPTION OF INCIDENT (use another sheet if necessary)

Diagram: one square = hull length; show positions of boats, wind and current directions, marks.

we request the race be abandoned;  
 1. The race was finished by shortening the course at a gate. The "5" flag was displayed and instructions to finish between the starboard gate mark and the boat. This is against the SI which instructs that if a gate is not present that the single buoy would be rounded to port  
 2. Numerous boats were seen to be paddling, rocking & ooching before the finish line  
 3. At the start the wind had shifted

over 50° to port meaning that you could not cross the start line on starboard. 2 time earlier in the day races were abandoned in similar conditions.  
 4. on the first leg approx 5 minutes into the race the wind dropped to zero knots.
